	NOTE: Modern Molecular Biology - The goal of this course is to expose students to recent discoveries, challenges, and applications of molecular biology. We will focus on the mechanisms of molecular biology within cells, the methods used to analyze these interactions, and their applications in basic research and biomedical treatments. The class format will focus on the discussion and analysis of primary research papers and literature reviews. There will be homework problems and writing assignments, student presentations, and we may include some hands-on lab activities that relate to molecular biology and its applications. Pre-reqs: Before enrolling in this course you must have a "C" or better in BIOL 350 and CHEM 221. Recommended pre-requisites: BIOL370 or CHEM417.

Throughout the course, students will submit three batches of work which will be critiqued by other students and the instructor. Then, at the end of the semester, a piece chosen by each student will be taught to the class by another student. This will open a dialogue about that student's work, style and creative heritage. Students will also do presentations on pieces in their chosen genre selected from the course texts. In addition, students will present a journal profile to the class. We will discuss major streams in the discourse of each genre and read the following texts: Nicky Beer's The Octopus Game, Amina Gautier's At-Risk & John Jeremiah Sullivan's Pulp Head. In this iteration of the course, we will focus on writing the other (both poems that address the other and techniques for creating work that contains or explores the other). The other, the non-self, has a long and rich history in poetry. In this course, we will read some of classic elegies on line and, through five monograph books, explore the range of manifestation and technique in the contemporary manifestations of the other and the social and personal responsibilities of such writing. We will pay special attention to persona poem, dramatic monologue and poetic	4	LEC	TR	11:00AM	-12:15PM	FH 149	NIEVES
